Factsheet
V.1.1 - 2018

REALFICTION™

Derived from the aesthetic shape of a diamond, this new type of holographic display elegantly glorifies your product in the most visually impressive way. Designed and developed in collaboration with Danish designer Steffen Schmelling, the Dreamoc Diamond offers our most exquisite Dreamoc experience at this time. With 4-sided visibility, the Dreamoc Diamond is one of our largest mixed reality displays ever built, specifically designed for events and brand activations in shopping malls, trade fairs and other high-traffic locations.

FEATURES

- Customizable billboard
- 4-sided LED lighting
- Active speakers
- Adjustable platform height
- Showcase everything from small premium
- 1-hour assembly time

OPTIONAL ACCESSORIES

Customizable billboard

Make your display an all-in-one branding beacon by adding a billboard on top of the cabinet. Fully customizable in size and materials.

Spill light protector

Eliminate the spill light from external spotlights from ceiling installations

4K screen upgrade

Upgrade the picture engine to 4K resolution screens, for the best image quality possible and an even more vivid experience.

Magnetic skins

Increase the branding on your display by adding the replaceable magnetic skins. Also available for branding of the inside of the display.
